A tolegram to the Echo says: "Delirium is constant, but not violent, He does not easy but mutter, incoherently hop after rave, but mutters incoherently hour after our, without commation."

THE HERALD'S SPECIAL CABLE The Herald's special, dated London, 2 p.m., says the recovery of the Prince ap-pears to be impossible. In case of his death, a council of the regency will probably be created, composed of the Duke of Cambridge, the Duke of Edin-burg, the Princess of Wales and perhaps others. This is likely to take place im-mediately, and to be followed by a discussion upon the power of the prese parliament to continue its session, whether it is necessary to the country call an extraordinary session.

HARDLY PROBABLE. There is a feeling in some circles in London that the official bulletins have represented the case of the Prince of Wales to be worse than it really is in or-
